## 1 General

The AX manager, abbreviated AXM, follows the footsteps of the well-proven LSM.

The interface is redesigned from scratch, intuitive and clear. It helps with daily tasks regarding all supported components (see [Scope of AXM Lite \[▶ 4\]](#)).

### New in AXM

In comparison to the LSM the AXM comes with the following major innovations:

- Microsoft SQL database as widespread substructure for databases
- Future-proof operation through touchscreen-operation
- Simplified tasks with user-friendly assistants
- Authorization groups: Collecting tank for identification media and closures. All contained identification media are automatically authorized to all contained closures.
- Keep an eye on everything: Global search in the whole software

### Lite edition

With the lite edition we are evolving to the next level of locking system management. This edition comes with selected features and a limited size for the locking system. (see LSM Starter edition).

You may manage up to 20 locks and 100 transponders.

## 2 Scope of AXM Lite

Projects	1 project
Locking systems	1 locking system (offline)
Users	1 user
Number of closures	20
Number of identification media	100 (only transponders)
Supported closures (only active technology)	<ul style="list-style-type: none"> <li>■ Digital Cylinder AX</li> <li>■ Locking cylinder 3061</li> <li>■ SmartHandle AX</li> <li>■ SmartHandle 3062</li> <li>■ SmartRelais 3063 (G2)</li> <li>■ SmartRelais 2 3063</li> <li>■ SmartLocker AX</li> <li>■ Furniture lock (G2)</li> </ul>
Unsupported closures (no G1, passive/hybrid technology, WaveNet)	<ul style="list-style-type: none"> <li>■ Z3 locking cylinder (G1)</li> <li>■ SmartHandle (G1)</li> <li>■ SmartRelais 3</li> <li>■ SmartRelais 3063 (G1)</li> <li>■ Padlock</li> <li>■ Block lock</li> </ul>
Identification media	<ul style="list-style-type: none"> <li>■ Transponders</li> <li>■ PinCode keypad</li> </ul>
Programming devices	<ul style="list-style-type: none"> <li>■ CD.Starter.G2</li> <li>■ SmartCD.G2/SmartCD2.G2</li> <li>■ SmartStick AX</li> </ul>

### 3 System requirements

#### AXM Lite

Operating system	<ul style="list-style-type: none"><li>Windows 10</li><li>Windows 11</li></ul>
Processor	1,44 GHz or faster (Intel, AMD) No support for ARM processors under System 3060
Random access memory	4 GB or more (recommended: 8 GB)
Free space	500 MB (physically)
Display	<ul style="list-style-type: none"><li>10" or bigger</li><li>1280×768 or more</li></ul>
.NET Framework	4.7
Supported MS SQL edition	SQL Server Express Local DB 2019

## 4 Setup

You may use AXM and LSM simultaneously.

- ✓ Administrator rights granted.
- Execute the setup file with administrator rights.
  - ↳ AXM and SQL database installing now.
  - ↳ AXM installed.

### Components originating from LSM databases

Migrating LSM databases is not possible yet. To reuse components from an existing locking system please proceed as follows:

1. Reset the components you want to reuse within the LSM.
  2. Perform the initial programming within the AXM.
- ↳ Components are migrated to the AXM.

## 6 Help and other information

### Information material/documents

You will find detailed information on operation and configuration and other documents on the website:

<https://www.simons-voss.com/en/documents.html>

### Software and drivers

Software and drivers can be found on the website:

<https://www.simons-voss.com/en/service/software-downloads.html>

### Declarations of conformity

You will find declarations of conformity and other certificates on the website:

<https://www.simons-voss.com/en/certificates.html>

### Technical support

Our technical support will be happy to help you (landline, costs depend on provider):

+49 (0) 89 / 99 228 333

### Email

You may prefer to send us an email.

### Address

SimonsVoss Technologies GmbH

Feringastr. 4

D-85774 Unterfoehring

Germany

## This is SimonsVoss

SimonsVoss, the pioneer in remote-controlled, cable-free locking technology provides system solutions with a wide range of products for SOHOs, SMEs, major companies and public institutions. SimonsVoss locking systems combine intelligent functionality, high quality and award-winning design Made in Germany.

As an innovative system provider, SimonsVoss focuses on scalable systems, high security, reliable components, powerful software and simple operation. As such, SimonsVoss is regarded as a technology leader in digital locking systems.

Our commercial success lies in the courage to innovate, sustainable thinking and action, and heartfelt appreciation of employees and partners.

SimonsVoss is a company in the ALLEGION Group, a globally active network in the security sector. Allegion is represented in around 130 countries worldwide ([www.allegion.com](http://www.allegion.com)).

### Made in Germany

SimonsVoss is truly committed to Germany as a manufacturing location: all products are developed and produced exclusively in Germany.
