SimonsVoss
technologies

(Junior/Mid-Level) SOFTWARE DEVELOPER FOR .NET WITH FOCUS ON BACKEND & CLOUD (m/w/d)

WHAT YOU SHOULD EXPECT

- Development of cloud-ready microservice-based backend platform in .NET Core
- Implementation and documentation of internal and external APIs
- Elaboration of the system architecture together with team members
- Conception and specification of new components and services
- Demanding and varied tasks with room for creativity in an innovative and international high-tech company

WHAT WE ARE LOOKING FOR

- Successfully completed studies
- In-depth knowledge of C# and .NET Core
- Experience with software design principles such as SOLID, Clean Code, Clean Architecture and 12Factors
- Experience in agile development projects (Scrum, Kanban)
- Enthusiasm for cloud technologies (such as Docker, Kubernetes, DevOps etc.) and ideally experience in cloud development
- Ability to map complex technical relationships to realizable principles
- Good German and English skills

WHAT WE OFFER

- An appreciative work environment, flexible working hours and an eye for a high life-work balance
- intensive, individual training period
- Personal and professional development with access to an extensive range of seminars and trainings
- 30 days of vacation
- Capital-building benefits and company pension
- Kita / Kiga allowance, fitness allowance for private sports activities and much more
