

// **FEATURES**

- ❖ The smart card is used for identification in System 3060 to actuate digital locking cylinders, SmartHandles, SmartRelays and SmartLocker.
- ❖ Manage up to 32,000 locking devices with a smart card and open doors and gates.
- ❖ MIFARE® Classic, MIFARE Plus® and MIFARE® DESFire® smart cards can be used in System 3060. This is particularly advantageous where a company already has cards which are used, for example, as a company ID or for recording time and attendance.

// **THE SMART CARD IS USED FOR IDENTIFICATION AND ACTIVATION IN SYSTEM 3060:**

Digital locking cylinders

Digital SmartLockers

Digital SmartHandles

SmartRelay – Reader
