

# TRANSPONDER 3064

THE TRANSPONDER SERVES AS A IDENTIFICATION MEDIA  
IN THE SYSTEM 3060

## DIGITAL LOCKING CYLINDERS

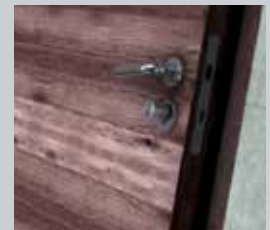

Hold the transponder at a distance about 15 cm in front of the cylinder and press the transponder button.

Wait for the acoustic confirmation indicating that the cylinder has engaged.

Then turn the knob of the digital locking cylinder in the direction of opening.

Then open the door.

## DIGITAL SMART HANDLES

Hold the transponder at a distance about 15 cm in front of the door fitting and press the transponder button.

Wait for the acoustic confirmation.

Press the handle down.

Then open the door.

## SMART RELAYS

Place the transponder appr. 40 cm in front of the SmartRelay ...

... and press the transponder button.

The SmartRelay will engage the associated device e.g. an electric door opener ...

... or a barrier will be opened.
